Credit Hour Policy Statement

In accordance with federal policy, NKU defines a credit hour as the amount of work represented in the achievement of student learning outcomes (verified by evidence of student achievement) that reasonably approximates one hour (50 minutes) of classroom instruction and a minimum of two hours of out-of-class student work. For every course credit hour, a typical student should expect to spend at least three hours per week of concentrated attention on course-related work including, but not limited to, class meeting time, reading, reviewing, organizing notes, studying and completing assignments. At least an equivalent amount of time is expected for other academic activities such as online courses, laboratory work, internships, practica, studio work and other academic work leading to the award of credit hours.

Estimates of the time required for a student to complete this course are:

Below is what would be expected of a student registered for 3 credit hours. Someone registered for 6 credit hours would expect to complete almost twice as much or someone registered for 1 hour would be less.

Hours Worked at Internship (20 hrs/wk x 15 wks) = 300.0 Hours

Readings, cover letter, resume = 16.0 Hours

Group Supervision = 24.0 Hours

Internship Presentations = 8.0 Hours

Total

= 348.0 Hours
